A New Year's gift to skiers from Ski Bromont!

Bromont, January 2, 2012 - This morning, Ski Bromont officially inaugurated its new chairlift, on the Versant des Épinettes. First conceived in 1964 by Mr. Roland Désourdy, the dream of this visionary has now become reality... 48 years later! What a great gift for visitors to the resort, to start off the New Year!

Entirely refurbished since its acquisition, the POMA fixed quad lift carries skiers to the top of the Versant des Épinettes, over a distance of 990 metres. The opening of the new chairlift means that skiers can more easily access a part of the mountain which, with its many glades and fine views, is considered one of Ski Bromont's best-kept secrets.

For daytime and evening skiing, Ski Bromont remains the place to be during the holiday season. Trails are already operating on the School slope, Mont Soleil, Versant du Village, Versant du Lac, Versant des Cantons and Versant des Épinettes. Right now, Ski Bromont offers the best skiing in Quebec, with 45 trails open. For updates on future trail openings, visit: www.skibromont.com
